

Billing Manager, Operations

We are looking for a Billing Manager that want to be part of a growth company within IoT and telecommunication and wants to contribute to a sustainable society with connected cities, industries, and properties!

The position

As Billing manager, you will be responsible for the following areas.

- Manage the production and delivery of billing and invoicing to customers.
- Measure performance against agreed KPIs.
- Ensure compliance to established processes and escalate deviations for resolution.
- Interface with Netmore stakeholders and clients to resolve specific issues, enhance operations or implement new standards and processes.
- Work with product management and implement billing for new and modified products.
- Liaise with billing software providers to improve billing accuracy, product availability and functionality.
- Ensure customer data quality.
- Price lists administration.
- CDR Flow management.
- Create, maintain and terminate products.
- Subscription activation, deactivation and suspension.
- Payment follow up.

Experience and education:

- Bachelor's degree or equivalent related work in Economics or Engineering
- 5 years of experience in billing, payment operations and database management

Type of employment: Permanent employment with initial probationary period of 6 months

Working time: Full time, 40 hours per week

Place of work: Stockholm, Sweden

Salary and benefits: Fixed monthly salary in accordance with collective agreement

About Netmore Group

Netmore Group currently delivers open ecosystems with IoT solutions from a variety of service providers. We provide technical infrastructure, with different mobile technologies such as 2G, 3G, 4G, 5G, Wi-Fi, NBIoT and LoRaWAN. It should be easy, secure and with a single API. With our ecosystems, we can increase and fully exploit the opportunities offered by new technologies and enable great solutions for people and the environment. The key is to shift from competition to co-operation and partnership. All from the point of view of the customer.
